## Farbfächer 2026

Kiefer · Fichte · Eiche · Meranti · Lasur- und RAL-Farben

# Farben für Holzfenster

## Holzarten, Lasurfarben und deckende RAL-Farben für unsere Holzfenster IV 68, IV 80 und IV 92

Dieser Farbfächer zeigt die Oberflächen für Holzfenster und -türen: die vier Holzarten Kiefer, Fichte, Eiche und Meranti als Rohholz und mit Klarlack, die Lasurfarben auf allen vier Holzarten sowie deckende Farben nach RAL.

Zur Standardpalette gehören Klarlack, sieben Lasurfarben und neun deckende RAL-Farben. Alle weiteren Lasur- und RAL-Farben sind als Sonderfarben erhältlich – Preis und Lieferzeit nennen wir Ihnen im Angebot.

Lasuren lassen die Maserung sichtbar; derselbe Farbton wirkt je nach Holzart, natürlicher Holzfarbe und Lackschicht unterschiedlich. Farben im Druck und am Bildschirm können vom Original abweichen. Auf Wunsch senden wir Ihnen Farbmuster.

Holzfenster konfigurieren Sie auf **okna-24.de** – ein individuelles Angebot erhalten Sie in 24 Stunden.
